For B.Tech CSE IT 2024 Batch

Job Role: - Frontend Engineering Intern
Location: - Bengaluru, Karnataka, India
CTC: - As per company standards

Job Description
We are seeking a dynamic Frontend Intern to join our team. The ideal candidate is a self-motivated hustler with a strong foundation in JavaScript and an impressive track record of college-level projects. This role offers a unique opportunity to contribute to a fast-growing startup while honing skills in cutting-edge frontend technologies.
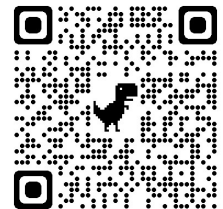

Details
- Date - Starting Dec 2023 or early Jan 2024
- Stipend - 50K per month
- Duration - 6 months
- Location - Bangalore Office Preferred
- PPO is based on the performance during the internship period

Requirements- Must haves
- Strong understanding of **JavaScript**, including **DOM manipulation** and the **JavaScript** object model.
- Working with Authentication and Authorization and concepts around routing libraries such as **React Router.**
- Thorough experience with **React** and its core principles such as **React Hooks**.
- Familiarity with **Redux** with **Thunk/Saga** for state management.
- Proficiency in testing with tools like **JEST** and **Cypress**.
- Experience with common front-end development tools such as **Vite**, **Babel**, **Webpack**, **NPM**, etc.
- Demonstrable portfolio of released applications on the web.
- Ability to understand business requirements and translate them into technical requirements.
- A knack for benchmarking and optimization.
- Familiarity with code versioning tools such as **Git**.
